

Styleitaliano

founded by
Dr. Walter Devoto and
Prof. Angelo Putignano

Style Italiano is a group of passionate clinicians and researchers, who are in constant development of materials and techniques for aesthetic and conservative dentistry. Their philosophy is based on developing solutions to make excellence in aesthetic and functional dentistry attainable by all.

For Polydentia, the collaboration with Style Italiano is more than just a source of inspiration. It is an opportunity to constantly renew its commitment to put excellence in Swiss manufacturing at the service of dentistry worldwide.

unica anterior

the one
solution
for anterior
restorations

matrix
systems

Restoration of both, interproximal and cervical, margins at once

Contoured profile for an anatomic restoration of the interproximal margins

Placement wings for ease of positioning and matrix adaptation

Easy management of the cervical area: predictable restoration and/or gingival retraction

unica anterior

powered by: **STYLE ITALIANO**

"In today's conservative dentistry, the choice of products and the techniques we apply everyday must be predictable and cost-effective, incorporating clear-cut advantages to our daily procedures. Unica is the solution to everyday anterior restorations, whether it be class III, IV, V, shape modifications, and/or composite veneers in direct stratification technique. One effective matrix for everyday anterior aesthetic and functional results."

Dr. Jordi Manauta, DDS
Head of Styleitaliano Idea Factory
Sestri Levante, Italy

Class III restoration

In case of a Class III cavity where the proximal margin is missing, Unica is very useful as it allows the clinician to visualise the final shape even before proceeding with the restoration.

Dr. Giuseppe Chiodera
Brescia, Italy

Class IV restoration

For this Class IV restoration, Unica helps to restore the cervical and interproximal profiles anatomically and in a very fast way.

Dr. Dan Lazar
Oradea, Romania

Composite veneers

Thanks to the new matrix Unica we have the possibility to restore at the same time the cervical and interproximal margins with significant advantages in terms of shape management and predictability of the restoration.

Dr. Monaldo Saracinelli & Dr. Antonino Nicolò
Italy

Shape modification

The unique design of Unica makes this matrix an essential and very efficient tool since it enables us to work both in the interproximal and cervical areas at the same time.

Dr. Carlos Fernández Villares - Madrid, Spain
