24 solutions for your Class II restorations

Testimonial

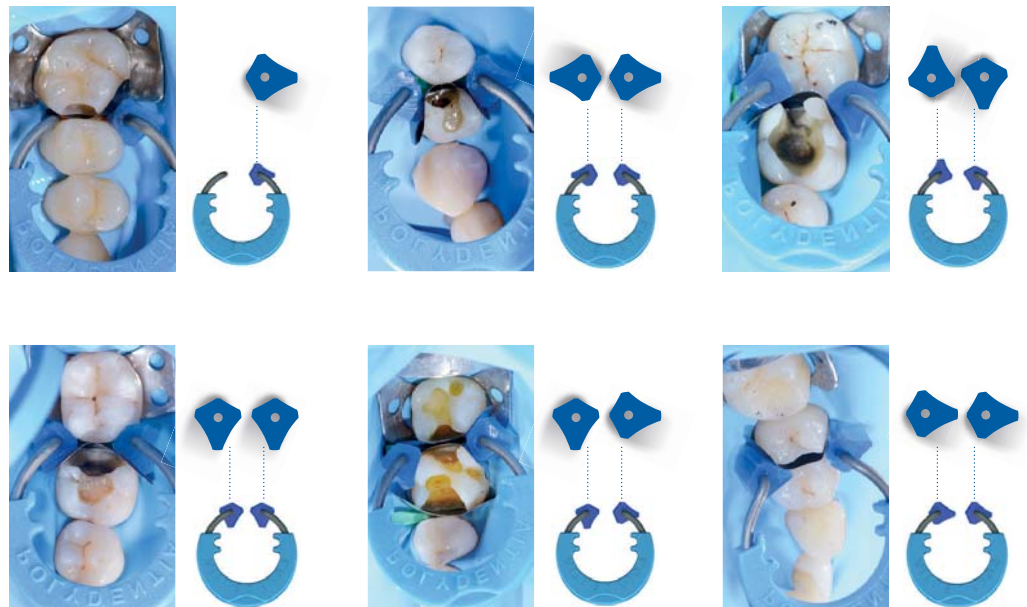

"Diamond²⁴ offer additional flexibility than standard silicon tubes enhancing the adaptation of the sectional matrix system to the clinical situation. The 24 possible combinations of size and shape of Diamond²⁴ ensure an optimal retention of the matrix to the palatine and buccal walls, without damaging and collapsing into the cavity."

Dr. Giuseppe Chiodera,
Brescia - Italy

en savoir
information

Diamond²⁴ are anatomically shaped silicon tubes designed to be used with Polydentia's sectional matrix ring "myRing Classico", Diamond²⁴ can be oriented in 24 different combinations of shape and length ensuring an optimal matrix retention and adaption to the tooth even in case of difficult clinical situations.
